## PPG MVP Refinish Area Optimization

How to maximize throughput and profit

This 1-day training course is designed to provide owners, managers and refinish technicians. Most paint shops are under-capacity and capable of producing more repairs. Learn how to evaluate, identify opportunities and implement improvement.

In this course participants will learn how to:

- ⇒ Review the refinish process
- ⇒ Examine the Key Performance Indicators in the paint shop
- ⇒ Learn the “Quick Changeover” approach
- ⇒ Increase production
- ⇒ Increase refinish hours produced
- ⇒ Common paint shop problems
- ⇒ Solutions to common problems
- ⇒ Proven strategies to drive improvement
